TRI announces appointment of new Vice President to the Health Division, Dr. Sandra Butler

Bethesda, MD (September 10, 2008): Technical Resources International, Inc. (TRI) is pleased to announce the appointment of Dr. Sandra Butler as the organization's new Vice President of the Health Division.

Dr. Butler will lead company wide initiatives that focus on clinical and non-clinical research. Among other responsibilities, Dr. Butler will manage the Health Division including Regulatory Affairs, Data Management, Safety & Pharmacovigilance, Quality Assurance, Medical/Scientific Writing, Clinical Trials Management, and Nonclinical Research Groups. She will be responsible for compliance with the applicable domestic and international regulations and guidelines (e.g., cGMP, GCP, and GLP). As Vice President, Dr. Butler will continue to provide TRI's clients with outstanding quality technical assistance in the biomedical and life sciences sectors, as she has done since joining the organization.

Dr. Butler is an industry veteran with extensive experience in a variety of industry related disciplines. Most recently she served as TRI's Director of Regulatory Affairs. In this role, her responsibilities included managing the overall process of review and preparation of regulatory documents for submission to the Federal Drug Administration (FDA). She reviewed clinical and nonclinical documents for regulatory compliance, and assisted in the collection, analysis, and assembly of scientific, manufacturing, administrative and clinical sections of regulatory submissions. In addition, she interacted on a regular basis with study sponsors, project managers, clinical research staff, and the FDA to ensure all deadlines and client requirements were met. Before joining TRI, Dr. Butler had garnered great experience in biopharmaceutical manufacturing and testing while working with Charles River Laboratories as the Associate Director of Biopharmaceutical and Technical Services, and previously as the Associate Director of Bioproduction Services.

About TRI: Technical Resources International, Inc. is a certified minority-owned full-service contract research and communications organization. We offer health and communications services to government agencies, the private sector, and non-profit organizations. Our areas of expertise include clinical trials management: site investigator selection & monitoring, data management, regulatory affairs & medical writing, quality assurance, safety & pharmacovigilance; health & environmental assessment, database design & support web site development, event management, and marketing & public outreach. Headquartered in Bethesda, Maryland, TRI has been repeatedly recognized among the Top 50 women-owned businesses in the Washington area.
