TRI is Featured within the 2007 Inc. 5,000 List

Bethesda, Maryland (2007): TRI is pleased to announce that we have been featured within the 2007 Inc. 5,000 list for the fastest growing companies in the United States. The Inc. 5,000 is an expansion of the Inc. 500, which Inc. introduced in 1982. TRI is proud to be featured amongst organizations from various industries who strive to deliver the most effective and efficient results to their clients and partner organizations.

These companies are the elite – a mere sliver of the seven million or so companies in the U.S. that have employees. What have we learned about them? The 5,000 fastest – growing private companies in the U.S. produced \$194 billion in 2006 revenue, about 1.5 percent of the national gross domestic product, and employed more than 900,000 people, about 0.6 percent of the jobs in the U.S...the average Inc. 5,000 company had more revenue than the average company on this year's Inc. 500 list - \$38.9 million for the Inc. 5,000 compared to \$34.4 million for the Inc. 500. It had a little over one and a third times as many employees – 187 for the Inc. 5,000; 138 for the Inc. 500. And it was nearly twice as old, with the average Inc. 5,000 company having been around 15 years, and the average Inc. 500 company just eight years old...

-Jim Melloan, Inc.com

The Inc. 5,000 is ranked according to percentage growth from 2003 through 2006.
